

Ol rikod blong etquek isave helpem yumi ta blong luksave ol eria we etquek istap happen long hem plante time or ol eria we ino gat tinas etquek I bin happen long hem. Hemia bae I save givhan long ol decisen mo ol plan blong devel- opmen blong kantri blong yumi.

Taem yumi kasein infomesen olsen long ol masin ia, bae yumi save givim ol woning kwik taem iko long ol komuniti we oli stap long denja blong oli save muv aot long solwoia kwik taem blong seven laef blong olgeta.

Taem yumi kasein infomesen olsen long ol masin ia, bae yumi save givim ol woning kwik taem iko long ol komuniti we oli stap long denja blong oli save muv aot long solwoia kwik taem blong seven laef blong olgeta.

HAO NAO MONITARING IA ISAVE HELPEM YUMI?

Ol masin mo ol stesen oli stap help blong givim infomesen abaot taem we etquek I happen, saes blong etquek mo ples we graon I brok long Vanuatu. Wetem ol save ia, yumi save talem se bae ikat wan **sunami** or no. Yumi save talem tu se wanem ol area kolosap long solwoia nao bae oli stap long bigfala denja long sunami.

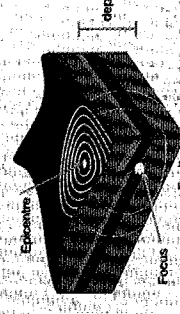

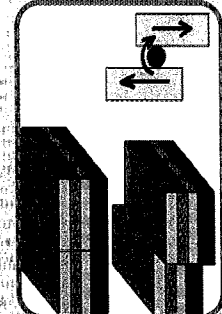

Taem yumi kasein infomesen olsen long ol masin ia, bae yumi save givim ol woning kwik taem iko long ol komuniti we oli stap long denja blong oli save muv aot long solwoia kwik taem blong seven laef blong olgeta.

WANEM IA ETQUEK?

Etquek hemi rifea long graon we I seksek

WANEM NAO I KOSEM WAN ETQUEK?

Tectonic muvmen blong ol pleit nao I kosom ol etquek. Ol kraon we yumi stap long hem oli fo- mem ol big blok we oli kolem ol tectonic pleit.

Ol samting ia oli stap muvmuv oltaem. Taem we oli pus akensem olgeta, presa insaed long kraon I bildap mo mekem se dip insaed long ol stone I save brok long ol ples we I katek folt, plante kilo- meta insaed long kraon. Taem kraon ia I brok, hemi rilisim enoji tru long kraon we I mekem kraon I seksek mo hemia nao yumi save filim.

MONITARING BLONG EDQUEK LONG VANUATU

WANEM NAO OL STESEN IA OL ISTAP MEKEM?

Long ol stesen ia ikat ol sensa o masin we oli stap rikodem ol muvmen blong kraon taem ikat wan etquek long Vanuatu.

Ol stesen I rikodem ol muvmen
blong graon

Infomesen o woning iko
aot long publik

Taem wan etquekI happen, hemi posibol blong kat wan sunami I folem tu. Be hemia bae I dipen long:

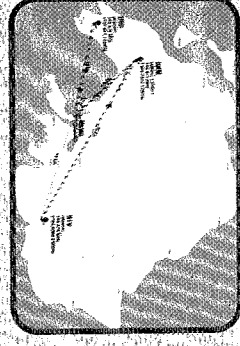

- Hao dip nao ples ia we graon I brok istap long hem
- Kraon graon or hull we istap andant long solwoia
- Saes blong etquek

Mekem sua se yu save kasein infomesen we ikamaot long Dipatmen blong Meteo mo Geo- hazad, tru long radio o long ol loko ol otorit kolosap long yu.

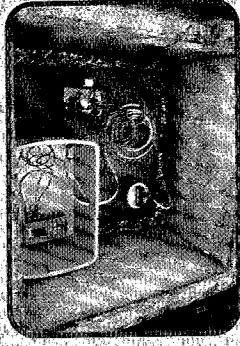

HAO NAO YUMI STAP MONITAREM OL EDQUEK LONG VANUATU?

Geo-hazards section long Vanuatu Meteorology mo Geo-hazard Department hem nao istap mekem wok blong monitarem ol volkeno mo etquek long ol aelan blong Vanuatu.

Ikat sam temporari stesen long sam aelan mo ikat wan pemanen netwok blong monitarem etquek long Efate.

Network blong
Hedquek long
Efate, 4 stesen

YUMI SAVE BLOKEM WAN ETQUEK?

No. Ino gat eni man I save blokem etquek or stopem kraon blo mo seksek. Wanem nomo we yumi save mekem hemi blong traem blong katem daon ol nogud efek blong hem. Yumi save fainem out wanem ol denja blo hedkwek long ol eria we ol man oli live long hem mo wonem ol man. Yumi save talem tu long ol man wanem kaem haos oli save bildim sapos I kat denja blong hedkwek long eria we oli stap long hem.

WANEM IA "AFTERSHOCK"?

"Aftashok" hemi ol etquek we oli happen afta long wan bigfala etquek long sem fala eria. Paoa blong ol aftashok oli smol moa long ol main shock. Ol aftashok oli save hapen stret afta long wan big etquek mo oli save happen plante dei mo plante wikl afta we wan big etquek I happen.

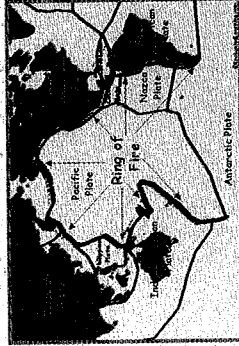

Ol senta blong main earthquake mo ol aftashok blong etquek blong Port Vila, 2 January 2002

WETAEM NAO ETQUEK I SAVE HAPPEN?

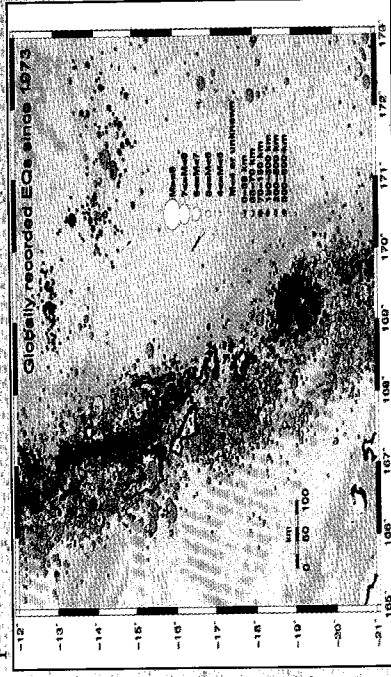

Etquek I save hapen ENI TAEM NOMO — long dei, long naet o long eli moning. Yumi no save predictim wanem taem stret wan hedkwek isave hapen. Ino gat eni clia saen we bae isave letem yumi save se wan hedkwek istap kam

WEA PLES LONG VANUATU NAO ETQUEK BAE I SAVE HAPPEN?

Etquek o kraon we I seksek I save happen long ENI PLES raon long Vanuatu.

Vanuatu hemi stap long west pat blong baondari blong Pasifik Pleit. Hemi part blong "Ring blong Faea blong Pacific", we hemi wan cheri blong ol volkeno we oli stap raonem ol saed blong Pacific Pleit. Ol ples we ol plet oli mit long hem oli kolem ol pleit baondari. Yumi save fainem fulap etquek, sunami mo volkeno long ol plet baondari ia.

Prejek ia hemi funded by NZAID mo Vanuatu Meteorology mo Geo-hazard Department nao I implementem. For more information, visitim Vanuatu Geo-hazards Website long www.geohazards.gov.vu or emailim geohazards@meteo.gov.vu
