## **New NDMO facility for Torba**

By Harrison Selmen

**A NEW NATIONAL DISASTER MANAGEMENT** Office (NDMO) building for the people of Torba Province was officially opened last Friday.

Minister of Climate Change, Ham Lini, led a delegation to Torba on Friday to open the building.

The new building accommodates three offices, one server room, one conference room, one storage room, reception space, toilet and bathroom.

The total cost of this new facility is Vt25 million and was funded by the European Union through the assistance of the World Bank. The main aim of this project is to increase the resilience of communities in the country.

Torba is a strategic site for this project because they have an active volcano which makes them susceptible and vulnerable to Natural Hazards.

A similar building was built on the island of Tanna and could be the first disaster buildings established outside from Luganville and Port Vila to provide timely information and warnings to the people during disaster periods.

Core task Team leader for the Project, Tevi Obed, said they are very happy to assist the Vanuatu Government on the project because it is part of the country's national priorities.

"They want to decentralize their services to the provinces so that the people can have easy access to disaster management services to help them

disasters". Mr. Obed said it is a good project for

the people of Torba.

The Meteorology Department has forecasted that the country is likely to experience 2 to 3 cyclones this cyclone

in their preparedness for natural the people of Torba Province to make good use of the new facility by taking heed of the information, advisories and warnings provided by this office in relation to cyclones as well as other disasters.

Minister for Climate Change,

departments under the Ministry of Climate Change and other government agencies will also use the building as Provincial Emergency Operation Centre (PEOC) to coordinate response during emergency or disaster event.

Minister Lini urged the people of season and thus Mr. Obed encouraged Ham Lini, said other government Torba to care for the facility so that it in making sure the project materializes.

can continue to provide the needed service to the people.

Secretary General (SG) for Torba Province and President Erick Shedrack extended their gratitude to the European Union, World Bank and the Government for working collaboratively

## Inspector cautions leaders against creating division among Tanna coffee farmers

cooperatively with politicians and community leaders from the island to continue to promote Tanna coffee

By Anita Roberts

**PROMINENT LEADERS MUST NOT** cause division among the Tanna coffee farmers.

This statement was made by Tanna Coffee Farmers chief Inspector, Willie Joe Iawis, on behalf of chiefs on Tanna and Tanna Coffee representative, Jacob Samuel, following in Tanna Coffee.

The chief inspector from west Tanna said all leaders; freely across Vanuatu. On community chiefs, politicians Tanna alone, there are around

and the Government must farmers out of the 1,000 cooperate with each other and work closely, following the Tanna coffee constitution to support the product's development progress,

He acknowledged Tanna Coffee for helping local farmers.

Grown on the rich soil of the active Yasur volcano on Tanna, rumors that some leaders from Tanna coffee is Vanuatu's first the island are creating division ever product to be exported around the world.

Seedlings are also exported

estimated coffee farmers in the country.

Tanna Coffee Company is also supporting the coffee industry on other islands like Epi and Efate.

Inspector Iawis said the company stands ready to supply free seedling to any farmers on Tanna and anywhere in Vanuatu.

Farmers who want free coffee seedlings and people seeking information about Tanna should contact mobile numbers: 7350120 and
