

## Vanuatu Climate Information Services, Adapt and Protect Project

Vanuatu is a long island country long with we have a high risk from impact of climate change types we are facing. Here we include natural disasters we have climate change types we are facing from impact of climate change we are facing on the level of the country we are facing to address the climate change (pH of the country we are facing).

Now we are facing the global warming we are facing a high risk of climate change types we are facing, we are facing a high risk of climate change types we are facing, we are facing a high risk of climate change types we are facing. The project is to address the climate change types we are facing, we are facing a high risk of climate change types we are facing, we are facing a high risk of climate change types we are facing. The project is to address the climate change types we are facing, we are facing a high risk of climate change types we are facing, we are facing a high risk of climate change types we are facing.

The project is to address the climate change types we are facing, we are facing a high risk of climate change types we are facing, we are facing a high risk of climate change types we are facing. The project is to address the climate change types we are facing, we are facing a high risk of climate change types we are facing, we are facing a high risk of climate change types we are facing. The project is to address the climate change types we are facing, we are facing a high risk of climate change types we are facing, we are facing a high risk of climate change types we are facing.

The focus of the project is to address the climate change types we are facing, we are facing a high risk of climate change types we are facing, we are facing a high risk of climate change types we are facing. The project is to address the climate change types we are facing, we are facing a high risk of climate change types we are facing, we are facing a high risk of climate change types we are facing. The project is to address the climate change types we are facing, we are facing a high risk of climate change types we are facing, we are facing a high risk of climate change types we are facing.

The project is to address the climate change types we are facing, we are facing a high risk of climate change types we are facing, we are facing a high risk of climate change types we are facing.

- Leftem map kapasiti mo abiliti blong olgeta nasonal developmen ejen, blong oli save andastanem, aksesem mo aplaem CIS
- Leftem map olgeta CIS komunikesen, knowledj prodak, tul mo olgeta risos blong save karemaot praktikol aplikesen long olgeta proses blong developmen.
- Impruvum rilaabiliti, wok, yus mo taemlaen blong olgeta CIS delivari sistem mo data koleksen infrastrukja.
- Impruvum saentifik data, infomesen mo save blong bifo, naoia mo fiuja klaemet blong mekem se i save gat resillien developmen

## Objektiv

Projek ia bambae i bildim kapasiti blong Vanuatu blong sapotem mo manejem klaemet data; developem mo delivarem olgeta praktikol *Climate Information Services* (“CIS”) tul mo risos; sapotem kodinesen mo distribusen blong infomesen; impruvum CIS infomesen mo teknoloji infrastrakja; mo sapotem aplikesen blong olgeta stret CIS tru long olgeta developmen proses.

Projek ia oli disaenem blong sapotem riselien developmen long Vanuatu we i stap gohed naoia tru long kapasiti developmen blong efektif aplikesen blong klaemet infomesen. Fokas blong projek ia hemi blong adresem olgeta infomeisen gap mo olgeta praeoriti nid blong olgeta benefiseri long nasonal, provinsol mo lokol komuniti level tru aot long olgeta faev (5) praeoriti sekta ia: turisim, agrikalja, infrastrakja, wota mo fisaris.

### SPREP Program

Klaemet Jenis Resiliens

### Deit we projek bambae i stat long hem

Tusdei, Oktoba namba 10, 2017 - 12:00

### Deit we bambae projek i en long hem

Mandei, Januari namba 10, 2022 - 12:00

### Badjet

US\$18,106,905

### Olgeta patna we oli kontribut long projek ia

Vanuatu Meteoroloji mo Jeohazad Dipatmen
