

**NATIONAL ADVISORY BOARD**  
on Climate Change and Disaster Risk Reduction  
GOVERNMENT OF VANUATU

**Invitation to Attend the Launching of The Freshwater Aquaculture and Governance Project for Vanuatu**

It is our pleasure to extend you this warm invitation to the launching of EU-GIZ funded project “Freshwater aquaculture and Governance, Vanuatu” a project in collaboration between Ministry of Fisheries, Ministry of Climate Change and Queensland University of Technology.

**Date/Time: Monday, October 17, 2016 at 14.00**

**Venue: Tagabe Freshwater Aquaculture Centre, Port Vila**

**The purpose of this historic occasion is to invite your participation in our collective efforts to multiply our efforts to significantly increase the overall response to development of small-scale aquaculture in Vanuatu. The project objectives are:**

- **trial and test economically and environmentally sustainable small-scale, community-based aquaculture models, integrating successes into a robust national aquaculture governance system; and,**
- **upgrade the infrastructure of Tagabe Freshwater Aquaculture Centre including improving skills of its technicians and enhancing overall planning and management of the facility**

Warmest Regards,

**Benjamin Jesse**  
Director General  
Ministry of Climate Change
