

**Civil Society Organization (CSO) Consultation On: Climate Change & REDD+
Community Hall, Epule Village, Efate
15th – 19th August 2016**

Objectives:

At the end of this Consultation, participants will:

- Increase knowledge & understanding on the concepts of REDD+ and why it is important to protect forests and other natural resources.*
- Be able to identify drivers and indirect drivers of deforestation and land degradation and understand that these environmental issues can be address by their normal practices of managing and protecting their forests & other natural resources.*
- Upgrade their knowledge & skills in learning how to develop strategic options, governance structures & Benefit Sharing through the activities they are doing in their communities.*
- Be familiar with the Vanuatu REDD+ Programme and understand their roles and responsibilities to engage their local communities in participating in REDD+ process and policies.*
- Set up networks that will enable them to mobilize in their local area for information sharing and reporting of activities.*

Arrival Day: Sunday 14th August 2016
