

Talem “NO” long Plastik

It seems as though every time we go to a shop we are given a plastic bag...

that we usually throw away! And when these bags end up in the ocean...

they can harm wildlife, like turtles, who think they are food.

The next time you go shopping, take a cloth bag or basket to the shops, and say “no”

Plastic Bags

- Plastik bags oli save stap ova 1,000 yias long envaeronment!
-
- Taem yumi bonem plastic i stap kosem klaemet jenis.
-
- I kat moa than 100,000 animol blong solwota we oli ded evri yia from plastic bag!
-
- Plastik i kam aot long petrol! Trak i save ron 115 mita wetem petrol we i bin use blong mekem wan plastic bag!
-
- Kaontri blong yumi i stap westem bigfala mani blong pikemap ol plastik bags!
-
- Nekis taem yu ko long stoa, karem own basket blong yu!

CLIMATE CHANGE

Is this the future?

There are many contributing causes

Transport

Petrol and diesel-powered cars and lorries, together with trains and aircraft, account for a large proportion of carbon dioxide emissions.

Population

As the number of people on the planet increases, so demand for housing, transport, heat, light and goods rises. More energy consumption means more emissions.

Industry

Most of the energy used to supply industry comes from burning fossil fuels. This process generates vast quantities of carbon dioxide and other greenhouse gases.

Deforestation

Cutting down trees means less carbon dioxide is stored in wood and the soil. Burning forests to clear land creates even more carbon dioxide.

Natural activity

Volcanic eruptions and changes in the Earth's orbit around the sun can affect our climate. In the past these events have lowered the temperature of the Earth's surface.

PLANEM TRI
NO PUTUM HAOS KLOSAP LONG SOLWOTA
MEKEM WAN VELEJ PLAN
PLANEM OL DIFDIFREN KAEN KAEKAE
SEVEM WOTA MO REN WOTA
LUKLUK LONG HAO BLONG PRESEVEM KAEKAE
PROTEKTEM BUS MO ENVAERONMENT
LUKAOTEM OL ANIMAL WE I GUD LONG HOT TAEM
FAENEM OL CROPS WE OLI NO NIDIM TUMAS WOTA

Trash and Climate Change

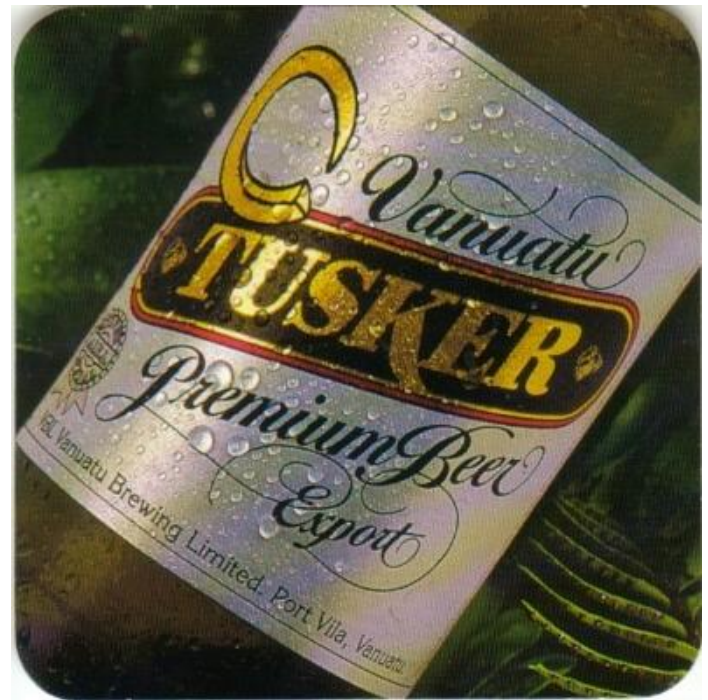

Rabis blong yumi i save

1. kosem klaetem jenis
2. mekem envaeronment i sik
blong i no save faetem ol bigfala
jenis (olsem flad, drought, cyclone)

Yu stap usum plante plastic, tin mo glass?

Sapos yu stap drink coca cola o kaikai pinat long tin, o stap usum glas botel o stap karem plastic bag long stoa i minism se yu stap usum samting we i kam long faktri.

Faktri nao hemi bigfala kos blong polusen blong ol green haos gas we i mekem klaemet i jenis. Sapos yu save usum ol lokol prodak nomo bae yu save helpem blong yumi winim klaetem jenis.

Yu stap usum pepa?

Ol pepa prodak oli kam aot long tri we yumi stap katem. Ol tri oli save pulum aot ol rabis gas long air.

Taem yumi katem yumi kosem klaemet jenis bakagen!
